Dear Dr. Miller:

As suggested by our conversation a few moments ago, I am sending you comments by Dr. Max Rafferty as taken from his new book, "WHAT THEY ARE DOING TO YOUR CHILDREN". These same comments were printed in a syndicated column of Dr. Rafferty's which appears in the Ft. Wayne, Indiana newspaper, and no doubt in other papers throughout the country.

I sincerely hope you will be able to read the book in its entirety soon. When you have read it, I'm certain that you will feel as I do, that everyone at all concerned with education in any aspect, should read it for its common-sense approach to many problems of our school systems.

Thank you again for your patience in listening to my many questions, and in relating them to the school board.

Sincerely,

(signed)

Betty Ann Enlow (Mrs. R. D.)
